

Pediatric Examination Table

640

The best most tender care possible

The Midmark 640 Pediatric Examination Table provides all the features and benefits you need to give your patients the best, most tender care possible.

Upholstered end panels, beveled sides, flat surfaces with no sharp edges and four leveling screws on the 640's base help assure that your most precious patients are safe and secure during examination.

The Midmark 640 eliminates excess strain and stress from repeated bending with an exam surface height of 36 inches. You get great access to the patient without the need to bend over.

There's no need to walk to another area for measuring, weighing or to retrieve supplies. And there's no need for a separate scale that can take up valuable counter space. Have what you need, when you need it at the point of care.

Measure infants easily and accurately with the 640's infantometer. It pulls out easily and articulates out of the way when you are finished measuring.

For all your storage needs, the Midmark 640 provides one oversized drawer, as well as a bulk storage area that's perfect for keeping diapers and equipment. A hidden paper roll holder with a paper tear strap at one end is yet another convenience.

Specifications

Working height:
36" (91.4 cm)

Table top length:
42" (106.7 cm)

Table top width:
20.75" (52.7 cm)

Paper roll holder:
Upper portion of table accommodates one 14" x 3" (35.6 x 7.6 cm) diameter
